Msc Psychology  
Bs.c Botany / Zoology  
B.Ed Education

Diploma Human Resources Management

**OGUNBAJO TEMITOPE (mnm)**

**Academic Officer**

B.Sc Biochem  
PG Edu Admin and Planning  
PG Dip Curriculum and Instruction

## WHY CANADIAN INTERNATIONAL SCHOOL?

The vision behind Canadian International School was born from a remarkable moment of innovation. In 2010, the Chairman, alongside three fellow engineers, worked tirelessly to develop a fuel-free generator. After months of unsuccessful attempts, a suggestion from a secondary school student in Canada—to explore magnetic field manipulation—led to a breakthrough.

This experience sparked the Chairman's interest in the Canadian educational system, particularly its emphasis on critical thinking and innovation. Inspired, he set out to blend his expertise in nurturing gifted minds with the principles of the Canadian curriculum. In 2013, Canadian International School was established, founded on a unique integration of the Canadian and Lagos State syllabi, with a mission to cultivate the next generation of global geniuses through advanced strategies, specialized tools, and forward-thinking education.

### A Unique Boarding Experience

In response to the global decline in ethics, values, and character among young people, Canadian International School has implemented a distinctive and intentional boarding arrangement designed to nurture holistic development.

Regarded as one of the most structured boarding systems across Europe and Africa, the school's

boarding house accommodates nine students of the same gender, grouped by varying grade levels, in a fully furnished apartment. Each apartment consists of three spacious bedrooms—each with three royal single beds—and an attached study room designed to encourage academic focus and peer collaboration.

Every unit is overseen by a dedicated **professional caregiver** of the same gender, carefully selected and specially trained to provide consistent mentorship, guidance, and emotional support. This unique setup promotes discipline, responsibility, and a sense of community, aligning with the school's commitment to character formation and academic excellence.

## A Strong Commitment to Security

Security remains a global concern, and at Canadian International School, we understand that a safe environment is essential for effective learning and growth. Located in the heart of Surulere Local Government Area, one of the most secure neighborhoods in Lagos, our campus is situated just 1 km from a government estate that accommodates several top national officials, further reinforcing the safety of our location.

We uphold the highest standards when it comes to safeguarding our students, staff, and premises. Security begins at the gate, where all students must present their official ID cards before entering. Our gates are constantly manned by a team of well-trained, professional security personnel, supported by an armed special unit in partnership with the Nigerian Police. At Canadian International School, safety is not just a priority—it's a non-negotiable part of our everyday operations.

## Prioritizing Student Health and Wellness

At Canadian International School, student health is of a top priority. Our well-equipped wellness room is staffed by qualified nurses and supported by a visiting doctor, ensuring prompt and professional medical attention within the school premises.

To further strengthen our healthcare services, the school maintains a retainer agreement with **Maryanville Medical Centre**, located just 200 meters from the school grounds. This highly reputable facility is staffed by a consortium of doctors specializing in various medical fields, providing access to comprehensive and expert care when needed.

For our boarding students, we offer added assurance through **health insurance coverage with RedCare HMO**, granting them access to some of the best healthcare services available in Nigeria. At Canadian International School, we are committed to safeguarding the well-being of every child—physically, emotionally, and mentally.

## Special Student

Canadian International School is committed to providing equal learning opportunities for all students, including those with special needs. In line with **Article 24 of the United Nations Convention on the Rights of Persons with Disabilities**, we ensure access to quality, inclusive education without discrimination—supporting every child to reach their full potential.

### Admission Process

Enrolling at Canadian International School is a simple, structured process designed to assess and support each student's educational journey:

Step 1: Purchase and fill the admission form.

Step 2: Candidates sit for an entrance examination on their scheduled date.

Step 3: Review of the applicant's educational and health history.

Following the assessment, feedback is provided to parents via email with next steps of action.

### Our Curriculum

Canadian International School offers a rich blend of the **Canadian and Nigerian curricula**, combining global teaching techniques, modern classroom management strategies, and diverse learning materials—including textbooks, software, and audiovisual aids. This integrated approach prepares students for key national and international examinations such as **BECE, Checkpoint, IGCSE, and WAEC**.

At CIS, every student is equipped to not only meet academic standards but to excel as a future-ready global learner.
